

## Northside Classroom Programs (For ages 3–5)

### **READY FOR BLASTOFF**

Sat., Jan. 13 | 1–2 pm

Train like an astronaut and blast off into outer space. Learn how astronauts get ready for their trips, what they pack for their journey, and make your own space suit.

### **JUNIOR ROCKET SCIENTIST**

Sat., Feb. 10 and Sat., March 9 | 1–2 pm

Do you want to become a Junior Rocket Scientist? This is your chance! Learn how rockets launch, design your own rocket ship, and explore how astronauts live in space.

### **CREEPY CRAWLY**

Sat., April 13 | 1–2 pm

Investigate insect parts and behavior through song and dance and make bug antennae to take home.

### **INCOMING LANDING**

Sat., May 11 | 1–2 pm

Build parachute landers and Mars rovers while learning the importance of engineering design and teamwork in space exploration.

Snacks are provided during every program. **FREE** premium memberships will be given to North Side residents with early learners, while supplies last.

### **LIMITED CAPACITY**

Register in advance for these experiences by calling Carnegie Science Center at 412.237.3400 Monday through Friday, between 9 am and 5 pm.
